

1st ANNOUNCEMENT

The International Symposium on Equatorial Aeronomy (ISEA) is an event organized approximately every three to four years and is a major event in the field of upper atmospheric and ionospheric science. ISEA brings together around 150 scientists from all over the world who are interested in studying the low latitude atmosphere and ionosphere and the coupling with other latitudinal and altitudinal regions.

The 13th International Symposium on Equatorial Aeronomy will be held from March 12-17, 2012 at the La Hacienda Bahia Paracas Hotel (http://www.hoteleslahacienda.com/esp/paracas/index_paracas.html), in Paracas-Peru. Preliminary information about ISEA 13 can be found at <http://jro.igp.gob.pe/isea13>

In addition to marking 50 years since the first ISEA held in Huaychulo, Peru in 1962, ISEA 13 will also celebrate the 50th Anniversary of the Jicamarca Radio Observatory (<http://jro.igp.gob.pe/jro50> - web site under construction). The central day for Jicamarca's 50th Anniversary celebration will be immediately after ISEA 13 on Saturday, March 17, 2012 at the Jicamarca Radio Observatory.

If you are interested in participating in ISEA 13 and receiving future announcements please contact us at isea13@jro.igp.gob.pe

Sincerely,

International Scientific Committee
